

With high exposure to air pollution, children in [Barrio Logan](#) have asthma-hospitalization rates three times more than the county average.

We know this has to change.

That's why we've been working with community members to collect data in and create EHC's [Clean Air and Safe Streets Ordinance](#) -- a proposition to route all diesel trucks away from homes, schools and senior centers in Barrio Logan.

Last week, we celebrated as [the City of San Diego Environment Committee unanimously approved developing this ordinance](#) to protect public health in our neighborhood.

[Learn more about clean air and safe streets in Barrio Logan](#)

[Thank Environment Committee for supporting a healthier Barrio Logan](#)

Everyone deserves a [healthy and safe place to live, work and play](#). Thank you for standing with us to build #healthyhoods.
