

**YOU DON'T SEE IT,  
BUT IT'S MAKING  
YOUR CHILD SICK.**

**CLIMATE CHANGE  
IS THE INVISIBLE THREAT.**

**TAKE ACTION TO  
PROTECT YOUR FAMILY.**

Climate change can't be seen or touched, but every day our families are affected by thick, dirty air, heat waves and spontaneous wildfires. The pollution from cars, industries and the generation of electricity harms our environment, and our health suffers. Ask your healthcare professional for more information and take action today to reduce pollution in your community and at home.

For more information on how to keep your family healthy, call La Maestra at 619-564-8139 or Environmental Health Coalition at 619-474-0220 x 121
