

Session III: Environmental Health I

Tia, so what do you talk about at these meetings anyway?

Well, one of the things is we talk about Environmental Health, which is \_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_.

But, I'll tell you, the more we know, the better off we are...

What do you mean?

Information is important because \_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_.

One of the things that's really important is to know what we are putting into our bodies. Sometimes we don't even know what poisons are right in our own house, like lead for example. Some of the effects of lead are \_\_\_\_\_
