

Philomena needs your support

Philomena Marino
Barrio Logan resident

The community of Barrio Logan has long been resilient, but the rate of asthma-related hospital visits is one of the highest in the state due to pollution.

We have worked alongside residents of our community. **Your donations make it possible to empower community members like Philomena to raise their voices.**

As a Neighborhood Logan resident for most of life, Philomena Marino has been a relentless advocate for public safety and senior citizens in Barrio Logan and the community.

- When the Tenth Avenue Marine Port Terminal proposed an expansion project creating more pollution and jeopardizing the health of its community, Philomena joined EHC.
- As a graduate of EHC's SALTA leadership training program and a community action team member, Philomena has coordinated dirty truck counts to monitor air pollution in her neighborhood.
- She was recently elected to the Barrio Logan Community Planning Group to guide projects that will preserve the culture of her community and improve the quality of life for families.

Help Philomena protect her neighborhood by donating to EHC this holiday season.

Philomena needs your support

The Barrio Logan community has been resilient for a long time; however, pollution causes the rate of hospital visits related to asthma is the highest in the entire state.

Hemos trabajado de la mano con residentes de nuestra comunidad durante décadas en la lucha por la justicia ambiental. **Sus donativos hacen posible facultar a gente de la comunidad como Philomena a elevar sus voces.**

Habiendo residido en Barrio Logan casi toda su vida, Philomena Marino ha sido una incansable defensora de la seguridad pública y de las personas de la tercera edad en Barrio Logan y en la comunidad.

- Cuando la terminal portuaria *Tenth Avenue Marine Terminal* propuso un proyecto de ampliación que generaría más contaminación y pondría en riesgo la salud de su comunidad, Philomena se unió a EHC.
- Tras graduarse del programa SALTA de capacitación en liderazgo que ofrece EHC, Philomena ha coordinado conteos de camiones contaminantes a fin de monitorear la contaminación atmosférica en su barrio.
- Recientemente se le eligió como integrante del Grupo de Planeación Comunitaria de Barrio Logan, donde guiará proyectos que preserven la cultura de su comunidad y mejoren la calidad de vida de familias de la localidad.

Ayude a Philomena a proteger a su barrio mediante realizar un donativo a EHC esta temporada decembrina.
